

AENU boilerplate

AENU is an Article 9 climate tech VC fund, focused on early stage companies in northern Europe. Its diverse team includes former unicorn-founders (Forto), climate-activists (LFCA) and institutional investors (Earlybird/ Macquarie/ Speedinvest). Their impact methodology is frequently quoted by experts. AENU specializes in the energy transition and the carbon economy. The portfolio achieved six up-rounds to date and recent investments include Monta (Creandum, Energize), alcemy (Galvanize, Local Globe), Agreea (HV, Kinnevik), Undo (LowerCarbon Capital) and Ocell.
